

Welcome to the

EUWI MULTISTAKEHOLDER FORUM

Thursday 20th of August 2009, from 14.00 to 17.30, Room T4

WHY EUWI?

Conscious that water supply is a global concern, and willing to achieve the water and sanitation Millennium Development Goals (MDG), the European Commission, the EU Member States, partner countries and other stakeholders decided to bring their strength and goodwill all together.

The European Union Water Initiative (EUWI) was launched in Johannesburg at the 2002 World Summit for Sustainable Development (WSSD). The EUWI is working to reinforce political commitment to water and sanitation, and to create a strong and integrated framework for EU action.

WHY A FORUM?

Organised by the European Commission, the annual EU Water Initiative (EUWI) Multistakeholder Forum is a half-day session to:

1. debate the EU Water Initiative,
2. comment on its performance,
3. discuss its strategic choices.

Participants are invited to review progress during 2008, to discuss and to endorse proposals on strategy and work programmes at regional level.

The first part of the meeting will present and discuss the results achieved. The Initiative comprises 4 regional components: Africa, Eastern Europe Caucasus and Central Asia (EECCA), Latin America and the Mediterranean and the two thematic components of Research and Finance. What did they do? How did they succeed? What is the room for improvement?

The second part of the meeting will be round table discussions to exchange experiences, and to gather participants' inputs to ensure the future successful development of EUWI. What can be learned and applied from failures and successes? How to reinforce commitments? How to accelerate progress?

AGENDA

- Convenors: European Commission with support from the Swedish Water House
- Chair: Mr. Antonio Garcia Fragio, European Commission

14:00: EU Water Initiative Achievements and Plans

1. Welcome & Introduction by Chair, Antonio Garcia Fragio, Head of Unit, European Commission
2. Opening words, Anders Berntell, SIWI
3. Activities and results of the EUWI
